INTRODUCTION (****different of next section PAGESIZE, etc.****)

We ask that authors follow some simple guidelines. **In essence, we ask you to make your paper look exactly like this document.** The easiest way to do this is simply to download the template, and replace the content with your own material.

PAGE SIZE

All material on each page should fit within a rectangle of 18 x 23.5 cm (7" x 9.25"), centered on the page, beginning 2.54 cm (1") from the top of the page and ending with 2.54 cm (1") from the bottom. The right and left margins should be 1.9 cm (.75"). **The text should be in one column.**

TYPESET TEXT

Normal or Body Text

Please use a **9-point Arial font**, or other Roman font with serifs, as close as possible in appearance to Arial in which these guidelines have been set. The goal is to have a 9-point text, as you see here. Please use sans-serif or non-proportional fonts only for special purposes, such as distinguishing source code text. If Arial is not available, try the font named Computer Modern Roman. On a Macintosh, use the font named Times. Right margins should be justified, not ragged.

Title and Authors

The title (**Arial 14-point bold**), authors' names (**Arial 12-point**) and affiliations (**Arial 10-point**) run across the full width of the page – one column wide. We also recommend e-mail address (**Arial 12-point**). See the top of this page for three addresses. If only one address is needed, center all address text. For three authors, you may have to improvise.

Subsequent Pages

For pages other than the first page, start at the top of the page, and continue in single-column format.

Table 1. Table captions should be placed above the table

Graphics	Top	In-between	Bottom
Tables	End	Last	First
Figures	Good	Similar	Very well

Page Numbering, Headers and Footers

Do not include headers, footers or page numbers in your submission. These will be added when the publications are assembled.

FIGURES/CAPTIONS

Place Tables/Figures/Images in text as close to the reference as possible (see Figure 1).

Captions should be Arial9-point bold. They should be numbered (e.g., “Table 1” or “Figure 2”), please note that the word for Table and Figure are spelled out. Figure’s captions should be centered beneath the image or picture, and Table captions should be centered above the table body.

Fig 1: If necessary, the images can be extended

SECTIONS

The heading of a section should be in **Arial12-point bold in all-capitals** flush left with an additional **6 points of white space above the section head**. Sections and subsequent sub- sections should be numbered and flush left. For a section head and a subsection head together (such as Section 3 and subsection 3.1), use no additional space above the subsection head.

Subsections

The heading of **subsections** should be in **Arial12-point bold** with **only the initial letters capitalized**. (Note: For subsections and subsubsections, a word like *the* or *a* is not capitalized unless it is the first word of the header.)

Subsubsections

The heading for subsubsections should be in Arial11-point italic with initial letters capitalized and 6-points of white space above the subsubsection head.
